3. Using the Search Function, please look for 'Substance Use'. From the results, look at 2-3 different resources, and their corresponding descriptions and resource details. Make a few notes about the information provided on each resource: does it provide all the details you would hope to find and is there anything in particular that would make you decide to use the resource for your teaching? In terms of information, is there anything missing you would be expecting to see to describe the resource?
